Augoslav authorities ero said to separate Rumanian refurees into anti-Commiscorm Communists and non-Communists. These in the non-Communist category are reportedly sent back across the Aumenian Provider, where it is said, they are usually shot on sight by the Sumanian Crontier guards.
- 2. Ramonian non-Communists who have managed to avoid being returned to Rusaniaand these Rumanians who entered Yugoslavia before this charge in policy are now used for forced labor. Several cases of shooting of sizeable numbers of America refugees near the Italian frontier have recurred in recent months.
